Household Size and Annual Income

For statistical purposes only, please provide the following information.
 Responses will be combined with others for analysis, as required by the
 Minnesota Department of Commerce.

No. of People	Income
1	\$22,980
2	\$31,020
3	\$39,060
4	\$47,100
5	\$55,140
6	\$63,180
7	\$71,220
8	\$79,260

Is your household income above or below the amount corresponding to your household size in the table to the right?
 Above Below

I certify that the equipment for which I am claiming a rebate meets the requirements shown in this application, has been installed at the installation address listed above, and that this address represents a valid Fairmont Public Utilities account. If I am requesting a rebate for a Central Air Conditioner or Air Source Heat Pump, I also agree to participate in the Load Management Program and have a receiver installed to control my Central Air Conditioner, Air Source Heat Pump and/or Electric Water Heater. I understand that this will be installed at no cost to me.

Customer Signature _____ Signature Date _____

Retailer Signature is required below if you are requesting a Recycling Rebate for your old working Refrigerator, Freezer or Room Air Conditioner.
I certify that this recycled equipment will be recycled in compliance with all environmental regulations:

2014 ENERGY STAR® Products Rebate Application

TERMS AND CONDITIONS

All information for the requested rebate as well as signatures from customer and retailer (if requesting recycling rebate) must be completed. Only complete applications will be processed. Customers must apply for rebates within three months of the purchase date shown on the receipt/invoice. The rebated equipment must be new (used/refurbished equipment does not qualify) and installed where electric service is provided by the Utility on a retail basis. Customers requesting a rebate for a Central Air Conditioner or Air Source Heat Pump also agree to participate in the Load Management Program and have a receiver installed (at no cost) to control their Central Air Conditioner, Air Source Heat Pump and/or Electric Water Heater. Rebate amount cannot exceed the price paid for the product. The Utility reserves the right to conduct random inspections to verify installation of the rebated equipment at the installation address indicated on the first page of this form. Recycled equipment must be **in working condition** to be eligible for the recycling rebate. Due to limited funding, this rebate offer can be withdrawn at anytime without notice, and is available on a first-come, first-served basis. After satisfactory review of the rebate form and other required documentation, a rebate check will be sent to the customer. Please allow 60 days from the receipt of this form for the delivery of the rebate. The Utility does not guarantee that the implementation of energy-efficiency measures or use of the equipment purchased and installed pursuant to this program will result in energy or cost savings. The Utility does not endorse any particular vendor, manufacturer, or product, and makes no warranties, expressed or implied, with respect to any equipment purchased or installed including, but not limited to, any warranty of merchantability or fitness for purpose. In no event shall the Utility be liable for any incidental or consequential damages.
